

Accomplishment - Hired Architect+Senior developer for project

Accomplishment: Hired Architect+Senior developer for project

Description:

In an otherwise very difficult hiring environment, we found and hired an excellent Senior Developer and Architect for Project Bamboo.

Purpose/Importance:

The local Project Bamboo team is responsible for building the Bamboo Services Platform (BSP), which is aligned to campus strategies for providing shared services in support of research..

Impacted areas:

...

Strategic Alignment:

The BSP platform is aligned to the IST direction for a services stack. Building strong local teams and related expertise is important to the long term success of campus services strategy.
