### Drupal Shops

#### Agile Humanities Agency
- **Dean Irvine**, agile.humanities@gmail.com
- [https://twitter.com/agilehumanities](https://twitter.com/agilehumanities)
- Integration between DiRT tool directory & DHCommons project directory (Research IT), module upgrade (Slavic faculty project), extensive custom theme (History of Art faculty project)
- **Added by**: Quinn Dombrowski, quinnd@berkeley.edu

Dean Irvine, the person in charge of AHA, is an English professor in Canada who has led a number of Drupal-based digital humanities projects. He deals with the logistics and paperwork for a number of developers he’s worked with who want to do freelance work on academic projects. He has extensive experience with higher ed, particularly the humanities, and communicates well with faculty, including those with little or no technical experience (though I’ve volunteered as a technical go-between for these projects.)

Aten is doing the Social Science Matrix site. While they haven’t finished the project at time of recommendation, I’ve been very impressed by their professionalism, capacity and quality of work. — Rochelle

| Project 6 | http://www.project6.com/Esten Sesto: esten@project6.com | UCB Principal Leadership Institute | 11/26/13 | Daphannie Stephens, ConnectEd I can’t say enough about how highly I recommend Project 6. They are outstanding to work with on every level. They are absolute professionals with an ability to be innovative and creative that is noteworthy. Unfortunately, you do not often find such a high dose of creativity, collaboration and professionalism in one organization or individual but it can be found at Project 6. I was most impressed with their ability to problem solve and design around a number of challenges. They are just amazing! http://ahma.berkeley.edu | 4/15/13 | I've just recently helped the Statistics Dept relaunch their site, and have worked with more than a dozen other university groups on Drupal 6 and 7 sites. Here's just a handful: http://statistics.berkeley.edu  
http://math.berkeley.edu  
http://medieval.berkeley.edu  
http://sseas.berkeley.edu  
http://ahma.berkeley.edu. I have experience getting the sites set up on Pantheon, integrated with CalNet, and have multiple strategies for importing events from events.berkeley.edu and courses from OSOC. I'm also insured to do contract work for UC. |
