

Goals

Version: 0.9

Status: Draft

Date: November 22, 2008

1. Provide a repository to maintain stories:

- illustrative of existing scholarly and creative processes which might be improved or augmented by shared services
- depicting the use of imagined or planned electronic tools, standards or services for the arts, humanities, and social sciences

2. Improve the capability to track the linkage between stories and the work of individual work groups.

3. Provide guidance for story collection and quality to encourage the creation of artifacts most useful to the Project.
