

Imagine Services

As of December 19, 2016 Imagine Service updated its software to Perceptive Content. Naming conventions have changed:

Old Names	New Names	Description
ImageNow	Perceptive Content	Client (installed on user desktop)
WebNow	WebNow	Browser based (no change)
NA	Perceptive Experience	Browser based (new module, accessible only from integrated system such as BFS, BearBuy, SIS, CalCentral, Travel & Entertainment)
