## About Exercise 1

The material indicated here as *Exercise 1* consists of notes from exercise 1 at workshops 1b-Chicago, 1c-Paris, and 1d-Princeton, and the morning sessions of day 1 and 2 at workshop 1a-Berkeley.

### At workshop 1a-Berkeley

This discussion was framed as *Bamboo Overview: Description, Approach, and Methodology* and *Workshop Check In: Questions, Answers, and Clarifications*.

### At workshop 1b-Chicago:

"What do you hope Bamboo will accomplish? What questions do you have regarding Bamboo?"

### At workshop 1c-Paris and 1d-Princeton:

"We are gathering together representatives from a range of backgrounds - scholars, libraries, IT staff, presses, funding agencies - around the theme of how technology can better serve arts and humanities research. Based on what you have heard at the table and read from the proposal, what one or two questions, observations and hopes would your table like to share with the group?"
